## Sioux Falls

you're sitting in my kitchen feeling dumb  
we rearrange our bodies in the sun  
you said one day i'm gonna face it  
last night i saw the last episode  
of true detective  
i thought it was a cop out the way they left it  
college kids dance manically  
do you think they're ok?  
or are they always just that way?  
am i bored or just a loser?  
i know i get bad yelp reviews  
but it's the best that i can do  
guts and gore  
on my computer screen  
i'm semi-ok and i'm staring into you you feel it in your insides that you've peaked  
you haven't made a single thing all week  
you say you're never gonna make it  
where?  
on the overlapping bridges late at night  
you touch my face as cars whirr by  
i like the nighttime  
i like the daytime too  
what should i be?  
what can i do?  
your family visits once a week  
you're so nice  
i like your room  
i think i meant to lead you on
