

# Man Like Moon

[Joakim](#)

Man like moon He was a man like moon on a ship like lime he wore yellow pantaloons and his head was out of  
time

A man like moon won't wake up so soon  
check on the timeline don't push the capsule  
no call before noon

He was a man like moon playing lonely tunes  
He was not so mean in the light seamed lean

A man like moon would be lost too soon shattered by the sun never on the run

A man like moon in a ship of lime drifting away  
in the silver space

just like a man a man like moon A man like moon he knows he's a fool  
in his lonely room he's staring at the stars

This man like moon numb and marooned keeps dreaming of the red clouds of Mars

A man like moon In silver rags in the darkness of time he's waiting for a sign

This man like moon would love to sail away in sweet delight to the milky way  
but i'm a man  
a man like moon
