Design

Betchadupa

Well the reason that I
have to spend the entire
rest of my life making the most of my time
being free from the man
please you all if I can
find it happens a lot
breaking things when I'm not right
Move to the hill
from a chemical spill
have a roof made of glass
and a house full of class
be a mystery guy
wear a shirt and a tie
cos the rules don't apply
from the conts on the wrong sideBe out of your mind
all of the time
drink up the wine
that's my designIgnorance is the bliss
that's the way to exist
what else can we do
sit in here watch the news
or sing about war
bang my head on the door
I'd rather help those around me
and hope that they're happyBe out of your mind
all of the time
drink up the wine
that's my designOut of your mind
all of the time
drink up the wine
that's my design
