## **Friendship Station**

## Le Tigre

The phone keeps ringing and it just won't stop There's a paper napkin in my coffeepot People freaking out on me left and right My head feels heavy but my feet feel light The clock keeps ticking inside my head Bad news is all I ever get The check I've been waiting for is not on time Everyone around me wants to start another fight I'm gonna let it be alright I'm gonna let it be alright I'm gonna let it be alright Alright I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there, I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there I wanna be there I wanna take you there

I wanna be there

I wanna take you there
I wanna take you there
I wanna be there
I wanna take you there
