Beat Patrol

Starship

Heaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will danceI will help you if I can
I can change the way you feel today
When your world turns upside down
It's time to make the break and dance into another dayAnd as the music starts to move you
Then it's time to go
Into the streets you dance
And then you lose controlHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will danceHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will danceThis is the age when you must win
'Cos there is no gold upon the streets today
You must find it from within
Music brings the dream machine your wayAnd as the feeling starts to move you
Then it's time to go
Into the streets you dance
And then you lose controlHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will danceHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will danceSay yeah, say yeah, yeah, yeah
What you say man
Here come the what, we are comin'Here come the beat, here come the beat patrol
Here come the beat, we will dance
Here come the beat, here comes the beat patrol
We will dance, we will danceHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will danceHeaven move me, move my soul
Here comes the beat
Here comes the beat patrol
We will dance, we will dance
