

# Somethin' Grand

[Madeleine Peyroux](#)

Wide awake  
Breath taken  
I'm shaken by my sight  
Couldn't sleep  
Couldn't keep  
Quiet secrets on the wind I hear  
There's somethin' grand coming  
Cool lumming  
Through my empty city  
On a night breeze so free lovers must collide  
And the morning sun must rise  
All is forgiven  
Cool your heads  
Highway men  
Come what name in  
Who run and fight

Here's your drink  
Time to think  
Soon you'll wandering away your fears  
There's somethin' grand coming  
Cool strumming  
Through my empty city  
'til the morning breaks  
and the weary eyes are clear  
Let the dreams of sleep take troubles far away from me  
There's somethin' grand coming  
Cool strumming  
Through my empty city  
'til the new day breaks  
and weary eyes are clear  
Dream of sleep take troubles far away from me  
All is forgiven
