

# Air Guitar

## DJ Hazard

I never was a cool kid  
No one ever really gave a damn what I did  
I liked to party but I never got invited  
Alone again so me, myself and I  
Tried karaoke but they told me I was only OK  
I guess I never should've sang BeyoncÃ©  
Or MJ  
So I dropped the MicOh yeah  
All the people in the bar turned round and stared  
I was on my knees and whipping round my hair  
And I knew that I was winningClose my eyes and see the crowd  
But my fingers don't make any sound  
My Air GuitarI keep it with me night and day  
You won't believe the way that I can play  
My Air Guitar, Air Guitar  
Like this(Bom chicka wah wah)  
In my head I am a Rockstar and I probably date a Pop Star  
A Pop Star and a model on the sideI know I'll never make it  
But tonight I'm good enough to fake it  
Bend an imaginary string and break it  
Replace it in the backstage of my mindBut I know my friends all think I'm living such a lie  
But the lie they think I'm living gets me high  
It's the gift that keeps on givingClose my eyes and see the crowd  
But my fingers don't make any sound  
My Air Guitar  
Jimmy Page and Brian May  
Won't believe the way that I can play  
My Air Guitar, Air Guitar  
Like thisAnd you think there's nothing there  
It's simply made of air you laugh but you're just scared  
Try it if you dareAir guitar  
Air guitar  
I take it with me everywhere  
Yeah but you don't even know it's there  
My Air Guitar, Air GuitarClose my eyes and see the crowd  
But my fingers don't make any sound  
My Air Guitar  
Keep it with me night and day  
You won't believe the way that I can play

My Air Guitar, Air Guitar
