

Eve

Nuclear Valdez

Dark one, gypsy
Where are you hiding,
Now that you've been discovered?

How can you sleep
Knowing I lay awake,
Alone beneath the covers!

You had me fooled for so long,
I never dreamed it'd be over,
But here's where I draw the line
And let you go.

Eve, I don't believe in words,
I don't believe in lies
I only believe in love,
Love, love, love....

Dear Eve, so far
Is that you up there
All alone in a starless sky?

My God, How could you
Say the things you said,
And look me in the eyes?

I find it hard to believe,
You took me for such a long ride,
But night turned into day
And truth to lies.

Eve, I don't believe in words,
I don't believe in lies
I only believe in love,
Love, love, love....

You had me fooled for so long,
I never dreamed it'd be over,
But night turned into day

And truth to lies.

Eve, I don't believe in words,
I don't believe in lies
I only believe in love,
Love, love, love....
