

When You're Around (Boys Noize Mix)

[Frankmusik](#)

When you're around
Everything's fine
Go to town and get quite drunk
Throughout the night we'll be alright
Cause I'm never down
When you're around
Down down down down
When you're down,
When you are when you are around
I'm never never down When you are when you're around
You make time but drive past
Moments seem to go so fast
Holding my hand
Can't quite understand why I'm never down
When you're around down
Round round round When you are down when you're around
I'm never never down
When you're
When you're around When you're around life is the best you make me stand any test
Cause for the rest of our days
When you're around round when you're
When you're around round round round
When you're down
When you're around when you're around I'm never never down
When you're
When you're around
