

Little Pills

Devilskin

You, you see youâ€™ve never seen my world
Unless itâ€™s the world that youâ€™re living in
And you, you see you never repeat the kill
Slapped in the face, and dignity
Fucked up in the back

Grinding teeth I feel the love,
Forget the one who brought and got me here
An example what happens now,
When little pills they rip at what you fear

You, you see you never stuck round long
Six months was a lie and I was there for the ride
And you, you see, you never fixed this one
You broke these bones long before you broke this heart

Grinding teeth I feel the love,
Forget the one who brought and got me here
An example what happens now,
When little pills they rip at what you fear
Watch your face just breakaway,
Watch your skin disabandon from the bone
In my head Iâ€™m happy now,
Cos Iâ€™m far better off without you!

Move far away from me
Take your shit and kindly leave
Do you know what youâ€™ve done,
Fucking up
Take your words and your perfect steeâ€™s
Your useless â€œcome see meâ€™s
No time is left for you no more,
You had your chance so fuck off, leave!
