Silkk the Shocker

Advisory - the following lyrics contain explicit language:

Keep your head up boo
Girl feel me and if you love me, you gon' love me till they kill me
Girl feel me, girl feel me, I'm a thug but love me till they kill me
Girl feel me, feel me, I'm a thug but girl, love me till they kill me
Feel me, girl feel me and if you real, you gon' love me till they kill me
Your friends try to tell you 'bout the things I do
They say I'm just too damn hard for you
All your friends think I'm just too thuggish for you
But I can do what no other man can do
Look, see, wanna let this thuggish nigga in?
Scared of the life, that I lead
Can't change addicted to smokin' weed
Can't change addicted to havin' G's
See, you wait patient knowin' you could be draped in gold
I can't deny, me an' you go together, like daytons and vogues
It's hard to find a true girl, that's a soldier
See when I was in jail, you come see me
When I was at home, you come over
And see, you don't like to gamble
But this one you can win, knock, knock on the door
Knock knock once more, this thuggish g's in
It's just the thug in me, girl
They say I'm making too much cash
It's just the thug in me, girl
They say I'm living much too fast
It's just the thug in me, girl
Your friends say I'm just too bad
It's just the thug in me, girl
Your people hope this thing won't last
Girl feel me, girl feel me and if you real boo
(You never ever really mattered too much to me)
You gonna be there till they kill Meg, girl feel me
That you were just too damn ghetto for me, girl feel me
All my friends think I'm just too good for you
But if you love me, be here till they kill me
I always think of ways to be with you
Girl feel me or love me till they kill me
I guess it's just this thug livin'
Got so scared, don't give me a hug
Don't let your guard down, till one day, you might fall for this thug

Pendin' the chances tryin' to get rich, you don't even much trip
But you get mad, when I call, female's a bitch
When I first met ya, you were so, ha, scared to react
But now when there's drama, you talk about step back
And pass me the strap
It's so much pain, in this game when I close my eyes
I'll be mad at the world, sometimes I take it out on your thighs
Now I wanna change but I can't stand being broke
So if you wanna be there for me, just sit back maintain and cope
It's just the thug in me, girl
They say I'm making too much cash
It's just the thug in me, girl
They say I'm living much too fast
It's just the thug in me, girl
Your friends say I'm just too bad
It's just the thug in me, girl
Your people hope this thing won't last
