Lumos Flies

ALL CAPS

You would not believe your eyes
I know that it sounds unwise
She's so smart, and yeah, she's just a friend
But she lit up the Yule Ball
My heart pushed against a wall
Just frozen, staring here in the Great HallI'd like to make myself believe
That she would look back at me
It's hard to say I'd rather leave than see her here with him
But everything is never as it seems with HermioneI've gotten a thousand hugs just tonight from Victor Krum
The Durmstrang boy who gave me a chance
But something just isn't right
It's not how I viewed tonight
I wasted time waiting for Ron's inviteI'd like to make myself believe
That stupid boy would ask me
It's hard to say cause he's stubborn and a pig and fights with me
But everything is never as it seems with Ron WeasleyOh Ronald Weasley, you're the worst
Please take me away from here
Maybe next time you should ask me first
Please take me away from here
Victor's dumb, but he treats me right
Please take me away from here
Now excuse me while I enjoy my nightCause I'd cast a thousand charms
She makes me feel so unarmed
I wonder if Harry's noticed yet
Oh he can be such a slime
But even if she's not mine
I won't give up, these things just take timeI'd like to make myself believe
That someday you'll fall for me
It's not like I'm gonna tell you to your face or anything
But 'til it happens I'll still have my dreams of you and me
I'd like to make myself believe
That someday you'll fall for me
It's not like I'm gonna tell you to your face or anything
But 'til it happens I'll still have my dreams of you and meI'd like to make myself believe
That someday you'll fall for me
It's not like I'm gonna tell you to your face or anything
Cause I am too afraid you'd disagree
