

# Story Of Love

## Westlife

(Chorus)

This is the story of love  
Let's make it last forever  
You hold the words that mean so much  
Let's make a vow together  
When the world falls behind  
I just look into those eyes  
And see the story of love  
Now is the moment  
I've been waiting for  
when dreams they come to life  
No hesitation, only open doors  
You pushed those doubts aside  
Somehow you always feel  
What's on my mind  
Seems like this consequence  
Came right on time  
(Chorus)

Running in circles  
Felt like eternity  
Indecision led my mind  
But you hold the window to all remedies  
And filled that space inside  
Somehow you turned the page  
To the other side  
What was an empty place  
Is now filled with life  
(Chorus)

No more illusions  
Brought down and divide  
With you, my baby  
All my confusions pushed aside  
(Chorus Acappella)
