

# Who Loves You

## Jersey Boys - Full Company

I send a message to you  
I close my eyes and hope it gets through  
It's in the language of love  
It's in your touch, there in your mouth  
I wonder if you hear me tonight  
Sometimes you're so far away  
I wanna have you near me tonight  
Do you belong to me?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it now?  
So tired I can't fall asleep  
I close my eyes and breathe in the heat  
I've got this passion for you  
Like inspiration out of the blue  
I wonder if you hear me tonight  
Sometimes you're so far away  
I wanna have you near me tonight  
Do you belong to me?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it now?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it?  
Who loves you?  
Who you're gonna run to?  
Who loves you?

What you're gonna do about it?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it?  
Who loves you?  
Who you're gonna run to?  
Who loves you?  
What you're gonna do about it now?  
What you're gonna do about it now?  
I send a message to you  
I close my eyes and hope it gets through
