

# Fist In Your Face

## Gotthard

You pushed it to the limit  
now you gotta choose tonight  
Tarot woman, you're all about to loose the fight  
Don't need a part time wizard  
Who drives me outta my mind  
'cause I'm alright  
I gonna live it up tonight  
Once upon a time,  
trought the world was mine alone  
had no time to realize,  
it came without a warning at all  
Like a fist in your face  
A fist in your face  
And there's a time bomb ticking  
Deep inside my head  
Must be a black hole attraction  
A wrong step n' your dead  
Don't know the words surrender  
Don't know the rules of the game  
I'm ready to go and I swear  
You won't forget my name
