One Sound

Backyard Babies

One sound one
Still lovin' it, BFGOne sound, one love
Something you should think of
We press charge, you press find
Find out my piece of mindI love this game
Don't need a head start anymore
We sure became the breakout
Talk about meteorSo check your head
We got no distance
To the score, manOne sound, one love
Seismographic, fucked up
It's state of art my state of mind
Just lick my lips and grindI love this game
Don't need a head start anymore
We sure became the breakout
Talk about meteorSo check your head
We got no distance
To the score, manOnce you're in you can't get out
The infinite roundabout
I dare you allGimme one sound, one love
Gimme all it takes
Communication, keep the faith
Blood in vein, love in wine
Bite my lip, one soundI love this game
Don't need a head start anymore
We sure became the breakout
Talk about meteorI love this game
Don't need a head start anymore
We sure becameOne sound, one love
One sound, one love
