Illuminated

Nat And Alex Wolff

Time waits for no one
So do you want to waste some time?
Oh, oh tonight
Don't be afraid of tomorrow
Just take my hand
I'll make it feel so much better tonightSuddenly my eyes are open
Everything comes into focus, oh
We are all illuminated
Lights are shining on our faces, blindingSwing me these sorrows
And try delusion for a while
It's such a beautiful night
You've got to lose inhibition
Romance your ego for a while
Come on, give it a trySuddenly my eyes are open
Everything comes into focus, oh
We are all illuminated
Lights are shining on our faces, blindingWe are, we are blinding
We are, we are blindingSuddenly my eyes are open
Everything comes into focus, oh
We are all illuminated
Lights are shining on our faces, blindingWe are, we are blinding
We are, we are blinding
