

Don't You Remember?

Dean Martin

(Remember, remember)

Do you remember when I met you (Remember)

Didn't the moon look big that night (Remember)

Didn't you say my arms felt right about you (Remember) Didn't you remember how I kissed you (Remember)

Didn't you snuggle close to me (Remember)

Didn't you say I'd never be without you (Remember)

Now your love's grown cold as December And the blue skies have all turned to gray

In my heart I will always remember

All the love that we knew yesterday

Don't you remember what you promised (Remember) Didn't we set a wedding day (Remember)

Didn't you say you would wait

Don't you remember (stop, stop, stop pretending)

(Don't you remember it was springtime How all the roses were in bloom

You had my picture upside down

Remember

And then there was the time that we made our plans about the future We said we'd really settle down

We'd build a house out side of town

(Remember)

Now your love's grown cold as December And my blue skies have all turned to gray

In my heart I will always remember

All the love that we knew yesterday

Don't you remember what you promised (Remember) Didn't we set a wedding day (Remember)

Didn't you say you would wait

Don't you remember (stop pretending, I remember)

Remember
