

# What Makes A Good Man?

## The Heavy

Tell me now (tell me now)  
'n' show me how (show me how)  
To understand (understand)  
What makes a good man?  
Tell me now (tell me now)  
Hey walk the line (walk the line)  
Hey understand (understand)  
What makes a good man?  
Ain't nothin' wrong with this chemistry  
Ain't nothin' wrong with this blasphemy  
And time tell that there's the pedigree  
Experience is another one meant for me  
To tell me now (tell me now)  
'n' show me how (show me how)  
To understand (understand)  
What makes a good man?  
To tell me now (tell me now)  
Hey walk the line (walk the line)  
Hey understand (understand)  
What makes a good man  
From me?  
(Yeah, yeah, yeah)  
Now I entitle swim for blood and birth  
I entitle swim for what it's worth  
Cause lines get drawn 'n' lines get kicked 'n' blurred  
  
Indelible is what I need to spread the word  
'n' tell me now (tell me now)  
'n' show me how (show me how)  
To understand (understand)  
What makes a good man?  
To tell me now (tell me now)  
Hey walk the line (walk the line)  
Hey understand (understand)  
What makes a good man  
From me?  
(Yeah, yeah, yeah)(2x)  
Tell me now (tell me now)  
'n' show me how (show me how)

To understand (understand)  
What makes a good man?  
To tell me now (tell me now)  
Hey walk the line (walk the line)  
Hey understand (understand)  
What makes a good man  
From me?  
From me (6x)  
What makes a good man  
From me? (3x)  
What makes a good man  
From me?
