Angel (What In the World's Come Over Us)

Atlanta Rhythm Section

Way back once upon a time
All our clouds were number nine
Every day was heaven sent
Wonder where the magic wentAngel, angel, what is happening?
What in the world's come over us?
What in the world's come over us?
What have we done, what has come over us?How'd we get so out of touch?
How did we fall apart this much?
Why does everything seem wrong?
Tell me where the thrill has gone?Angel, angel, what is happening?
What in the world's come over us?
What in the world's come over us?
What have we done, what has come over us?
Yeah, yeah
