

Viva Voce

The Rocketboys

Pretty soon now
I hope I find my voice
Not that I have much
Much of a choice
Because I've been searching high
I've searching low
To try to find it
I guess it's still small To all the people I know that listen
Listen to me
Hallelujah
To all the people I know that prayed for me
For my safety
Hallelujah Can you hear me now?
Can you hear me now?
I'm singing out as loud as I know how
But I'm loud enough
I got my voice
And you got yours
So let's make a little noise
Uh oh ooh
All together now To all the people
I know that were lovers
But turned into fighters
I wanna say
To all the people I know
That needed my love
I wanna say
I wanna say Can you hear me now?
Can you hear me now?
I'm singing out as loud as I know how
But I'm loud enough
I got my voice
And you got yours
So let's make a little noise
Uh oh ooh
All together now Uh oh ooh ooh uh oh
Uh oh ooh ooh uh oh Can you hear me now?
Can you hear me now?
I'm singing out as loud as I know how

But I'm loud enough
I got my voice
And you got yours
So let's make a little noise
Uh oh ooh
All together now Uh oh ooh ooh uh oh
Uh oh ooh ooh uh oh
