

You Can See (feat. Future)

Jadakiss

Advisory - the following lyrics contain explicit language:

[Intro]

You can see

You can see (We good)

You can see (matter fact we great)[Verse 1: Jadakiss]

One, one, one, one, one, one

Two, two, two, two, two

Three, three, three, three, three, three

Four, four, four, four, four, four

Top 5 DOA, niggas know he don't play

I can sell a ki a day, I guess it's in my DNA

Comfortable with being at the top, that's where he gon' stay

Niggas usually stand there and shock when they see the K

I'm the general of the block, I'ma lead the way

Either way you can call me Paul, long as Peter pay

These niggas can fuck around with me? That'll be the day

.45 ACP I let them bleed away

Overpaid, under rated , deaf to the one's who hated

Big family of criminals, I'm the one who made it

Still get you situated, blue steel nickel-plated

We can clearly see what's going on here, articulate it[Hook: Future]

And I don't and I don't can I rock up me some coke

Can I buy another car and I don't have to pay a note

Can I pay my lawyer off and I don't have to go to court

I'mma smash a gang of bitches, gettin' money yeah I know

If you can see get money (?)

If you can see these bitches and what they'll gone buy

If you can see the pain in these nigga's eyes

Then from the look of it nigga, you know what they about

If you can see these bitches and what they'll gone buy

If you can see get money (?)

If you can see the pain in these nigga's eyes

Then from the look of it nigga, you know what they about[Verse 2: Jadakiss]

One, one, one, one, one, one
Two, two, two, two, two
Three three three three three three
Four four four four four four
Top 5 DOA, niggas know he don't play
Get it over quick, I figure you gon' die either way
Out there on the strip, late night, sipping E&J
Breaking down on every sale we get, nigga me and K
They always gon' want the weed
They always gon' need the yay
Whoever don't need to bleed
Definitely need to pray
All you niggas need to leave
All your bitches need to stay
Trying to alleviate the FBI and CIA
Whole scale full of work
Wholesale on the Percs
Love me in the hood
Plus I got the jails on alert
Still get you situated, blue steel nickel-plated
We can clearly see what's going on here, articulate it[Hook: Future]
And I don't and I don't can I rock up me some coke
Can I buy another car and I don't have to pay a note
Can I pay my lawyer off and I don't have to go to court
I'mma smash a gang of bitches, gettin' money yeah I know
If you can see get money (?)
If you can see these bitches and what they'll gone buy
If you can see the pain in these nigga's eyes
Then from the look of it nigga, you know what they about
If you can see these bitches and what they'll gone buy
If you can see get money (?)
If you can see the pain in these nigga's eyes
Then from the look of it nigga, you know what they about
