Love Foolosophy

Jamiroquai

Baby baby, I feel these sweet sensations, yeah
Honey honey, looks like a superstar, yeah yeah
She' got a promise of love-struck fascination
What am I to do? How am I to know? Who you are?
And this love, fool, osophy is killing
Previous illusions that
I had in my mind about you
Seems so true, all the lies you're telling
Tragically compelling and
My love it means nothing to you
So maybe I'm still a love fool
She shimmers like a California sunset
Lady lady, glitters but theres no gold
She carries sweetly infectious magic formulas
I'm so delirious, is she that serious?
Or is she bringing me on, I've been waiting so long
And this love, fool, osophy is killing
Previous illusions that
I had in my mind about you
Seems so true, all the lies you're telling
Tragically compelling and
My love it means nothing to you
So maybe I'm still a love fool
I don't want the world, I want you
Yeah, I don't want the world, I want you
I don't want the world, I want you
I want you
I want you
I want you
I want you
Love, fool, osophy is killing
Previous illusions that
I had in my mind about you
Seems so true, all the lies you're telling
Tragically compelling and
My love it means nothing to you
So maybe I'm still a love fool
My love it means nothing to you
So maybe I'm still a love fool

You're my love foolosophy
Don't you see it's killing me
You're my love foolosophy
Don't you see it's killing me
I'm a love fool
