Listen

Stonefree

I.
close the door
i feel a breeze hold me please
i hate to be alone
it's a cold night,
turn off the light
come take my hand and...CHORUS:
listen,
to these things i have to say
please understand, she
left me all alone again...II.
clear the room of every memory
i don't want our song back on
it's an endless maze
take away this haze
mend my heart and...
(repeat chorus 2x)BRIDGE:
turn away, don't want you to see me cry
i just want things the way they were
why is it so hard to say goodbye?
wipe my tears and...
(repeat chorus)so this i ask of you
please stay with me
until she comes back
until she comes
until she comes back
until she comes
please listen and stay
until she comes
until she comes back
until she comes back...
