Clever

Thornley

Crush my only nerve
Overstate what you deserve
Crawling on the floor
One can see under the door
You're so clever, you never
Said we would last forever
I twist it, I missed it
Can't keep this thing together
Said hey, no way
Can't deal with this today
Yes I guess you're so clever
Crack your ready whip
Gentlemen shoot from the hip
Throw my fears away
I can't afford them anyway
You're so clever, you never
Said we would last forever
I twist it, I missed it
Can't keep this thing together
Said hey, no way
Can't deal with this today
Yes I guess you're so clever
You're so clever, you never
Said we would last forever
I twist it, I missed it
Can't keep this thing together
Said hey, no way
Can't deal with this today
Yes I guess you're so clever
