Obvious Heart

Finger Eleven

The obvious heart has come to collect
'Cause it tore apart like a tortured insect
The obvious heart waits here to heal
And balances out a subtle reveal'Cause theres a remedy close
In a familiar dose
This bitter pill to swallow
Is last in the bottle tonight
Youre empty, its alrightAnd full of yourself
No need to explain to anyone else
Broken in time, taken whats left
No need to deny, the cause or effect'Cause theres a remedy close
In a familiar dose
Now you can find out who knows
Soaking the truth that she says
In taken chancesThis heart is not a broken one
But where have all the colors gone
Its still among the lucky onesThis heart is not a broken one
But where have all the colors gone
Youre still among the lucky ones
And burning longer than the sun'Cause theres a remedy close
In a familiar dose
Now you can find out who knows
Soaking the truth that she says
In taken chancesIn taken chances, in taken chances'Cause there's a remedy close
(In taken chances)
In a familiar dose
(In taken chances)
That you can find out who knows
(In taken chances)'Cause there's a remedy close
(In taken chances)
In a familiar dose
(In taken chances)
That you can find out who knows
(In taken chances)'Cause there's a remedy close
