

Fever

Azure Ray

Fever, I know you've come to take my love
Go away, fever I know your face just like a dove
Fly away, fever turn the lights out
Take a different road, let us be
Fever, I know you've come to take my love
Go away, fever I know in God I shouldn't trust
He's so far away, fever turn the lights out
Take a different road, let us be
Fever take a different route, travel a different road
Let us be, fever I know you've come to take my love
Go away, fly away, go away
