Something Written

Anja Garbarek

There was something
Written down
Somewhere.
I don't quite remember where.
But,
That's not so important
Now is it?There was something
Written down
Somewhere.
I don't remember who
Wrote it,
Nor the year.
And I cannot recall
Word
By
Word
What it was.
But,
It brought a feeling of...
It's difficult
To explain.
But,
I sort of had the
Urge to,
Well,
Write it down.And perhaps
Even memorize it,
So that
I could
Impress you...There was something
Written down
Somewhere.
I don't quite remember where.
But,
That's not so important
Now is it?As long as there was something written...Down!
