Speak Easy

311

If there's a scream inside of you just let it go
You're beating yourself up baby don't you know
You've got to get through
And lift the roof off your soulIt's like a pain locked in a part of your heart
It's got no reason to leave it unless you start
To warm it up
Be wise and be smartOut on the ocean
There's no one around no one to hear a sound
It's just us out here out on the ocean
Speaking freelyAway from the city
Away from the ears that bug us and judge us
It's so liberating to be free
And my heart slows downNice and easy
And your breathing will be pleasing
Just speak easy
And say what's on your mindI search for something to compare you to
Thought long and hard for a simile true
Now I'm suddenly aware
End the quest you're beyond compare, so speak easyIf there's a shadow in your life then there's sunshine
Things turning inside out all the time
Just rewind
It's all in your mindOh, so speak easy out here we're floating
Late in the night and the only light to guide us is a
Full moon that's glowing
On the seaNice and easy
And your breathing will be pleasing
Just speak easy
And say what's on your mindI search for something to compare you to
Thought long and hard for a simile true
Now I'm suddenly aware
End the quest you're beyond compare, so speak easySpeak easy
Speak easy
Speak easy
