Head

The Nixons

Lonely little girl on your island
Won't you come to me
I'm in a lonely little upstairs room without you
Won't you come to me
Come on
Come on
Come onLaugh about it, cry about it
Wouldn't go nowhere without it
Get up early, get a worm
Even if you're not a bird
It's mine, mine, mine
Take my heart, take my soul
Take my love - still want more
Well I'm keeping my head
Keeping my headLonely little girl on your island
Won't you come to me
I'm in a place I think I know
You've seen before
Come to meLaugh about it, die without it
Couldn't think a thing without it
In the front it's getting cold
In the back it's even older
It's mine, mine, yours, mine, his, hers
It, shit, not, hot, it's a lot
Take my soul, take my heart
Take my legs, private parts
But I'm keeping my head
Keeping my head
Keeping my head
Keeping my head
