

# Dissolve

## Cities Aviv

Grind away 'til you decay  
For this next world I decay  
Drug me like DK  
'til I can't feel my own face  
These cold floors like steel plates  
Pressing me out of my dreams  
Keep looking inside, projecting outside  
The culture is never the same instead  
No time to pick, no time to choose  
No time for time, no time to lose  
Fuck is you supposed to do  
When your world divides in two  
It's no time to fuck no time to lose  
No time for love, no time for you  
Fuck is you supposed to do, nigga  
Tell me what's left of you  
Everything is everything, nothing at all  
It's nothing at all, in regards to me  
Cause anything and everything I'll watch it dissolve  
Watch it dissolve back into place Everything is everything, nothing at all  
It's nothing at all, in regards to me  
It's anything and everything I'll watch it dissolve  
Watch it dissolve back into place Return into dust  
Return back to dust  
Wake up and the world is yours  
Wake up and the world is gone Return into dust  
Return back to dust  
Wake up and the world is gone  
Wake up and the world is yours  
Return into dust  
Return back to dust  
Wake up and the world is yours  
Wake up and the world is gone Return into dust  
Dissolve into dust Watch me dissolve
