

# Running Blind (Acoustic)

## Godsmack

Can't find the answers  
I've been crawling on my knees  
Looking for anything  
To keep me from drowning  
Promises have been turned to lies  
Can't even be honest inside  
Now I'm running backward  
Watching my life wave me goodbyeRunning blind  
I'm running blind  
Somebody help me see I'm running blindSearching for nothing  
Wondering if I'll change  
I'm trying everything  
But everything still stays the same  
I thought if I showed you I could fly  
Wouldn't need anyone by my side  
Now I'm running backward  
With broken wings I know I'll dieI'm running blind  
Running blind  
Somebody help me see I'm running blind  
Running blind  
Running blind  
Running blind
