

# The Start of Something Beautiful

## Porcupine Tree

Always in my thoughts you are  
Always in my dreams you are  
I've got your voice on tape  
I've got your spirit in a photograph

Always out of reach you are

Cold inside my arms you are  
Simple like a child you are  
I remember when you took my hand  
And led me through the rain

Down inside my soul you are

[Chorus]

The more I show the way I feel the less I find you give a damn  
The more I get to know the less I find that I understand  
Innocent the time we spent because I met your regal friends  
I thought it was the start of something beautiful- now think again

Mother lost her looks for you  
Father never wanted you  
I trust to love and then I find  
You never really felt the same

Something in your heart so cruel

[Chorus]

---
