

Lovin' Understandin' Man

[Don Williams](#)

My baby changes like the weather
One day she's warm and then she's cold
But some day I'll understand her better
In a thousand years or so
But as long as there's blue sky above me
And as long as there's life in my hand
My baby knows I always will be
Her lovin' understandin' man
My baby rocks me like the ocean
Don't know which way she's gonna go
But maybe some day she'll find direction
In a thousand years or so
But as long as there's blue sky above me
And as long as there's life in my hand
My baby knows I always will be
Her lovin' understandin' man
