

# Feel the Power

## Twisted Sister

So you think we'll have to save our name, oh  
Let's lay the cards out on the table  
And we haven't got the stuff it takes There ain't no way we'll lose our stakes  
We ride the tiger, we ride the storm  
We'll fight your fire, like never before, you'll hear our roar  
CHORUS: You got to feel the power  
You got to feel the power  
Feel the power, feel the power  
You got to feel the power, feel the power So we hear you think you're so amending  
We'll show you all that we will do  
We'll show you what the truth can do  
You think your powers never ending We have the reason, we have the might REPEAT CHORUS  
Alright  
And for your treason we're gonna fight you day and night Solo - Jay Jay REPEAT CHORUS  
So you better think before you trail on  
There's single truth we ain't your bet Well, man you ain't seen nothing yet  
And if it's got to set your mental  
We are the tiger, we are the storm  
We are the fire, like never before, you'll hear our roar REPEAT CHORUS
