Like You Better Dead

In Flames

I can be as angry as i want to be
Just watch me burn
I think you're way to cold
Just watch and learnI'll never sleep here anymore
My house is not my home
I like you better dead
And I'm better off alone[Chorus:]
Destiny will you cure me?
Trust will you age with me?
Hear me scream
Destiny will you cure me?
Hear me scream
As I face tomorrowYour vision may be in colour
But you look all pale
In these times we should be learning
But with you i'll always fail[Chorus:]I need to save myself before i drown
It took so long to see
The world your mind creates
It pushes me under[Chorus:]
