

Another Day With a Broken Heart

[Sarantos](#)

Verse 1 When I was with you under the sun
Always had so much damn fun
Friday night alone with your smile
Under the stars making out for a while
PreChorus 1 Fast forward to where I am today
Hard to realize how much has gone away
Chorus 1 Another day with a broken heart
We're just too far apart
Another day, goes by
I'm just so empty inside
Verse 2 You packed your things and gave a shout
Slammed the door on your way out
Wish I didn't feel that breeze
Wish you stayed and forgave me
PreChorus 2 Fast forward to where I am today
Never thought you'd go away
Chorus 2 Another day with a broken heart
We're just too far apart
Another day, goes by
I'm just so empty inside
Another day with a broken heart
We're just too far apart
Another day, broken and blue
My life is nothing without you
Verse 3 I tried everything I could
Tried to get you back for good
I swear I am a better man
Waiting for you to give a damn
PreChorus 3 If our love was sassy
I'd be feeling so jazzy
Chorus 3 Another day with a broken heart
We're just too far apart
Another day, goes by
I'm just so empty inside
Outro Another day with a broken heart
We're just too far apart
Another day with a broken heart
Maybe I'll make a brand new start
