

Have a Little Faith (In Us) [Edit]

John Farnham

See the lovers in the faded photograph
She's making funny faces, he's trying not to laugh
Do you remember the way we used to be
When love lifted us up, made us feel so free? How we betrayed each other
Trying to rediscover
That feeling once again
This is not the end There's no ghost from the past that we can't shake
Have a little faith in us, have a little faith in us
There's no history that we can't remake
Have a little faith in us, for all we know the best is yet to come We like the wind under our wings, you and I
We stay on the ground too long, we get that urge to fly
And it seems that the grass would be more green
In any other place with any change of scene Here is the love we long for
Open the secret door
And it will take us in
And sweep us off our feet again There's no ghost from the past that we can't shake
Have a little faith in us, have a little faith in us
There's no history that we can't remake
Have a little faith in us, have a little faith in us There's no ghost from the past that we can't shake
Have a little faith in us, have a little faith in us
There's no destiny that we can't create
Have a little faith in us, for all we know the best is yet to come And we can climb that mountain and go
Where this love has never gone before
And in our wildest heart of hearts we will know
That we have been reborn There's no ghost from the past that we can't shake
Have a little faith in us, have a little faith in us
There's no history that we can't remake
Have a little faith in us, have a little faith in us There's no ghost from the past that we can't shake
Have a little faith in us, have a little faith in us
There's no destiny that we can't create
Have a little faith in us, for all we know the best is yet to come Have a little faith in us
Have a little faith, have a little faith in us
Have a little faith in us
Have a little faith, have a little faith in us
Have a little faith in us Have a little faith, have a little faith in us
Have a little faith, have a little faith in us
Have a little faith, have a little faith in us
Have a little faith, have a little faith in us
Have a little faith, have a little faith in us

Have a little faith, have a little faith in us
Have a little faith, have a little faith in usHave a little faith, have a little faith in us
Have a little faith, have a little faith in us
Have a little faith
