Color Blind

Michael W. Smith

There's not a world of difference
Out in the world tonight
Between this world of people
Red, yellow, black an' white
But instead of riding a rainbow of love
We still are fighting with prejudice gloves of anger
With something to claim
But nothing to gain so
Why can't we be color blind?
You know we should
Be living together
An' we'd find a reason an' rhyme
I know we would
'Cause we could see better
If we could be color blind
Somebody's just assuming
He's up to nothin' good
'Cause he's not like the others
There goes the neighborhood
What kind of world are we livin' in?
We judge a man by the tone of his skin, it's crazy
'Cause he has a heart like
You have a heart and
Why can't we be color blind?
You know we should
Be living together
We'd find a reason an' rhyme
I know we would
'Cause we could see better
If we could be color blind
It'd be so fine
To be color blind
To open our eyes
And see color blind
I know this world would be a better place
The only race would be the human race
To be color blind
All of those barriers would be erased
To open our eyes

Why can't we be color blind?
Yea, he has a heart like
You have a heart and
Why can't we?
Why can't we be color blind?
You know we should
Be living together
We'd find a reason an' rhyme
I know we would
'Cause we could see better
If we could be color blind
You know we should
Be living together
We'd find a reason an' rhyme
I know we would
We could see better
If we could be color blind
You know we should
Be living together
We'd find a reason an' rhyme
I know we would
We could see better
If we could be color blind
You know we should
Be living together
We'd find a reason and rhyme
I know we would
We could see better
If we could be color blind
You know we should
Be living together
We'd find a reason and rhyme
I know we would
We could see better
If we could be color blind
