

# Lovely Tonight

[Joshua Radin](#)

I need you to know this won't be broken  
And all that we said will not be lost into the dawn  
And you would be the last thing I saw coming  
I'm still surprised You are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you Alone we are fine; but when we're two, we are eternal  
The moons have aligned our separate lives; here become one  
And you would be the last thing I saw coming  
I'm still surprised You are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you All my life I've lived alone without you  
All this time I couldn't find a way to belong And you are lovely tonight  
You, dear, will guide me into the morning light  
You are lovely tonight  
Lay here beside me - I see the rest of my life with you
