

# Light Years

## The City Drive

This is the day that I  
Figure out the rest of my life  
Who do I want to be?  
Will I ever get to be somebody? Apart from you  
A part of you  
Always gets carried around So get all dressed down  
And go and hit the town  
Funny how it always works out You're not the only  
One who is lonely  
Everyone knows We're different speeds  
With light years between  
And yet it goes On and on So we joke around again  
Could we ever really be friends?  
I'll always say I want you and  
Secretly mean it We could talk about it  
But I doubt it  
Would make any difference now It would take forever  
For us to stay together  
Funny how it never works out You're not the only  
One who is lonely  
Everyone knows We're different speeds  
With light years between  
And yet it goes So let me go  
Don't let it go  
On and on It's hard to know if this is for the best  
But I guess we'll find out in time  
All you've ever wanted lies ahead You're not the only  
One who is lonely  
Everyone knows We're different speeds  
With light years between  
And yet it goes So let me go  
Don't let it go  
On and on
