

If You Wanna Stay (The Rooftop Boys Remix)

The Griswolds

There's this light upon my face
To tell me something's about to change
Just another cold embrace
I'm talking like I did yesterday If you wanna stay
I will never miss you while I'm away
If you wanna stay
I will never miss you while I'm away There's these crowns upon my faith
To tell me something's about to change
Won't be hard to be replaced
Something better will take the place There's just something that I've done
That makes me think this is all wrong
There's just something that I've done
Don't you think that we've had enough? If you wanna stay
I will never miss you while I'm away
If you wanna stay
I will never miss you while I'm away If you wanna stay
I will never miss you while I'm away
If you wanna stay
I will never miss you while I'm away
If you wanna stay
I will never miss you while I'm away
If you wanna stay
I will never miss you while I'm away I will never miss you while I'm away
I will never miss you while I'm away
