

Calleth You, Cometh I

The Ark

And I know we were both too young way back when we had our thing
and you're not the one that i think everytime that the telephone ringsand i know that what we had would not be
called love by the ones who know
and i know it's been many years and hundred love affairs agoi know all that so well but i also do know this
calleth you cometh I
And that's just how it is and how it is always been It's were my reason stops and
something else comes in i know it doesn't make sense but still..
calleth you cometh I
And that's how it isAnd I know we became restrained everytime we were among friends
And I know how it was last time and how bitterly it always ends
And I know we were both too young to know what real love would be like
And i know our communication didn't always work out rightI know all that so well but i also do know this calleth
you cometh I
And that's just how it is and how it's always been It 's were my reason stops
and something else comes in i know it doesn't make sense but still..
Calleth you cometh I and I've been waiting for this so long,
waiting to sing this song ...for...youEdit Lyrics Edit Wiki Add Video
