

The Waiting's Done

Maiden Dixie

Got this black dress in my closet
Just begging for attention tonight
And this little diamond necklace
I'd love to see reflecting in your eyes

And there's a song playing telling all
The way I want you now
Take me there
Take me there

Somewhere I can feel your kisses dancing on my skin
Somewhere we can both let go and just go fallin' in
Finally feel that feeling we've been waiting for so long
So here we are -- So here we are
And The Waiting's Done

I'm glad you called, I must've thought of calling you at least a hundred times
Oh cuz girl you left a memory like perfume that's been flirting with my mind
That same songs playing telling all the way I want you now
Let's go there -- Let's go now

Somewhere I can feel your kisses dancing on my skin
Somewhere we can both let go and just go fallin' in
Finally feel that feeling we've been waiting for so long
So here we are -- So here we are

I know what I'm thinking about
Yeah that's what I'm thinking about
So let's stop talking about it, baby
Let's do something about it

Somewhere I can feel your kisses dancing on my skin
Somewhere we can both let go and just go fallin' in
Finally feel that feeling we've been waiting for so long
So here we are -- So here we are
Now here we are -- Now here we are
And the Waiting's Done
The Waiting's Done
