Change of Occupancy

Lorene Drive

I never said I didn't do it
Don't give me that look again
(That look again)
She cant go there and
I'm just too scared, I slightly said calmlyI'm not so calm
Anymore, any longerI heard you scream out loud
What about me, what about me?
The place you felt the most
Was the place that you hopedSo what do we do now?
Now that there's nothing left
Nothing left to give and I'm not perfect
And I know that you care
But just don't show meShe cant go there and
I'm just too scared, I slightly said calmlyI'm not so calm
Anymore, any longerI heard you scream out loud
What about me, what about me?
The place you felt the most
Was the place that you hopedI heard you scream out loud
What about me, what about me?
The place you felt the most
Was the place that you hopedI'm not so calm
Anymore, any longer but I lieI heard you scream out loud
What about me, what about me?
The place you felt the most
Was the place that you hoped
