

Too Young to Know (2007 Remaster)

UFO

Well, I've stuck out in your street
And I'm lookin' for some kind of halo
When somebody says to me, boy
She's too young to know[Chorus]
Well, I didn't make your time
I never said you were mine
Don't you think you show
I guess I'll have to teach you how to roll
Met you outside school
when sure no one was lookin'
And your teacher looks at me,
all his envy growin'[Chorus]I said, take it easy baby,
you sure know what's showin'
And I can't help myself
without your friends all knowin'[Chorus][Chorus]
You got a long, long way to go
