I'm the Lucky One

Mark Selby

You roll the dice, you place your bets
Your winning streak still ain't over yet
And that dark-eyed girl blows you a kiss
From across the roomYou cash your chips, pockets overflow
You're so rich nobody tells you no
Nobody, nobody's got it made like youYou got it good, I got it better
I've got a love, I can't forget her
Think what you will say what you want
I'm the lucky oneI serve it up, you drink it down
With all your new friends, you buy the rounds
Toss me some money, say hey buddy
Hey buddy you can keep the changeWell, I can use it but what you don't know
Is I got somethin' worth more than all you own
And she'll stand by me, she's still gonna love me
Even if I lose the gameYou got it good, I got it better
I've got a love, I can't forget her
Think what you will say what you want
I'm the lucky one
