

Iconoclast

Century

Guardians of darkness set my spirit free
From this land of madness, give me something to believe
Your system and religion control me like a disease
Strength and determination, I almost let you bleed
They'll let you bleed No gods, no masters, no authority
Only yourself
Divine disciples control your destiny
Believe in yourself Baptism of fire into society
Crucified and brainwashed, told just what to believe
Drowned in holy water to cleanse in purity
Guilty for existing, your mind will never be free
You'll never be free No gods, no masters, no authority
Only yourself
Divine disciples control your destiny
Believe in yourself You're strong without god, everyone is a star
There's no authority, but yourself
No gods, no masters, there is no god but man
No gods, no masters, there is no god but man Man made gods and idols, you think can save man
If you become suicidal, you're made to believe they can
Sins for which I'm guilty, I am by my own hand
Forgiveness I'm not seeking, I'll live by my own command
Your own command No gods, no masters, no authority
Only yourself
Divine disciples control your destiny
Believe in yourself No gods, no masters, no authority
Only yourself
Divine disciples control your destiny
Believe in yourself
