

No More War

This Frontier Needs Heroes

Some say if you don't like it That you better leave
but I for one would like to live somewhere in peace
but where on earth could I go if I want to love
no place in particular just somewhere where I can grow cause I don't want to fight no more
I don't want fight no war no more
I don't want to fight no more I have never fought for anything in my life
And that's the way I like it cause people aren't supposed to fight
but now that I have to I will never quit
because for some reason I'm sick of all of this cause I don't want to fight no more
I don't want fight no war no more
I don't want to fight no more I know what your thinking how could this be true
what makes me a hero when I'm just like you well I don't want to fight no more
I don't want fight no war no more
I don't want to fight no more
