

Weight Of The World

Lemar

It's like chasing shadows, I never seem to win
Just when I'm over you I feel myself falling again
No hope of grace, I'm loosing faith
All I can do is pray
Can you hear me?
Can you hear me?
Can you hear me?
'Cause it feels like the weight of the world
Have the angels turned their back on me?
It feels like the weight of the world
Can't let go of what we used to be
And though my cries have gone unheard and I'm left on my knees
It feels like the weight of the world
'Cause I still remember how it felt
When you loved me, when you loved me
I got no rule to follow, left with no eyes to see
No love to borrow, since you left I can barely breathe
In my lonely place and it can't be traced
All I can do is pray
Can you hear me?
Can you hear me?
Can you hear me?
It feels like the weight of the world
Have the angels turned their back on me?
It feels like the weight of the world
Can't let go of what we used to be
And though my cries have gone unheard and I'm left on my knees
It feels like the weight of the world
'Cause I still remember how it felt
When you loved me, when you loved me
Love me again or set me free
Love me again, no
Love me again or set me free
It feels like the weight of the world
Have the angels turned their back on me?
It feels like the weight of the world
Can't let go of what we used to be
And though my cries have gone unheard and I'm left on my knees
It feels like the weight of the world

'Cause I still remember how it felt
When you loved me, you loved me
Say you'll love me again, when you loved me
